### PROFESSIONAL SUMMARY

*Detail-oriented Front End Developer with 2 years of experience in designing and building responsive, user-friendly web applications. Proficient in HTML5, CSS, Bootstrap, JavaScript, tailwindCSS, React.js, Typescript and Vue.js, with a proven record of optimizing performance and enhancing user engagement. Adept at collaborating with cross-functional teams to translate design mockups into functional code that meets modern UI/UX standards.*

### WORK EXPERIENCE

#### Front end developer | Delta, Nigeria | July 2024 - January 2025

Delta state innovation hub, Schoolville Limited

- Assisted in developing new features for the company's primary website by writing clean, modular code in HTML, CSS, and JavaScript.
- Improved cross-browser compatibility and responsiveness by applying modern CSS techniques (including Flexbox and Grid layouts).
- Conducted testing and debugging, contributing to a smoother rollout of updated features.
- Supported senior developers in refining front-end workflows, gaining hands-on experience with Agile development practices.
- Collaborated with the front end developer team in building two successful projects and it was an amazing experience

#### Front end developer | Lagos, Nigeria | March 2023-Present

Glit edge construction ltd (Remote)

- Developed and maintained a responsive website that highlights construction projects through high-quality images, interactive galleries, and virtual tour integrations.
- Implement interactive features (e.g., dynamic project maps, real-time status dashboards, and online quote or estimation tools) that allow clients and internal teams to access current project data.
- Collaborated with back-end developers to integrate APIs from project management or estimation systems, ensuring seamless data flow and up-to-date project information.
